Describe the type of typical customers you are targeting. Briefly outline the key facts about your customer profile. Clarify whether demand will increase in the future and explain how you arrive at this demand figure.

Required Resources

How much financial resources will be needed to open your business? Identify the key resources needed to deliver your value proposition, including physical assets (equipment, location), human resources (expertise, skills) and financial resources (if the need is greater than the value of the grant then it must be determined)

According to the Exel budget format for this call
