

SUS_AGRI

SUSTAINABLE AGRICULTURE AND CLIMATE CHANGE: IMPACTS, STRATEGIES, AND MITIGATION ACTIONS

GREEN

SuS_AGRI - SuSustainable AGRiculture and climate change: impacts, strategies, and mitigation actions - is a project funded by the European Union under the Interreg IPA South Adriatic Programme 2021-2027.

Duration

start date - end date

01.02.2024 - 31.01.2025

Main Goal

In Italy-Albania-Montenegro area, SuS_AGRI aims to enhance agricultural producers' knowledge on agricultural practices to mitigate the effects of global warming.

Due to climate change effects, water scarcity, change in precipitation regime, bacteria and rising temperature have been identified as major climate risk factors across the agriculture sector of the South Adriatic area.

Total budget

141.705,02 €

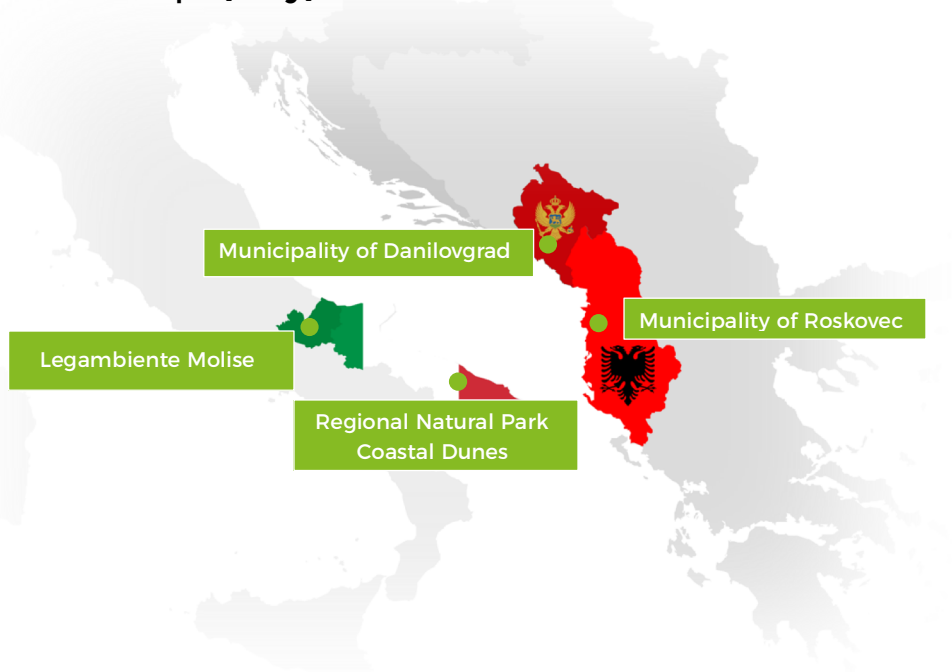

EU funding

116.680,31 €

Project Partners

- **Lead Partner** – Regional Natural Park Coastal Dunes (**Italy**)
- **Partner** – Municipality of Roskovec (**Albania**)
- **Partner** – Municipality of Danilovgrad (**Montenegro**)
- **Partner** – Legambiente Molise Aps (**Italy**)

Project main activities -Expected output/results

Through four cross-border workshops, a 3-day training, and the developing a Joint Action Plan, the project enhances cooperation among South Adriatic farmers to combat climate change. Each partner will sign a Memorandum of Understanding to ensure long-term cross-border cooperation in this field for improving rural resilience.
